

Notice

Environmental Protection Act 1994

Amendment of an environmental authority by written agreement

This non-statutory notice is issued by the administering authority to advise that the environmental authority has been amended by written agreement with the environmental authority holder under section 215(1)(b) of the Environmental Protection Act 1994.

To: Mt Rawdon Operations Pty Ltd
Level 24, 175 Liverpool Street
Sydney NSW 2000

By email: paul.wright@evolutionmining.com

ATTN: Paul Wright – Superintendent, Sustainability

Our reference: EPML00712113

Amendment of an environmental authority by written agreement

1. Environmental authority details

Environmental authority number: EPML00712113 held by Mt Rawdon Operations Pty Ltd dated 13 August 2021.

Land description: ML1231, ML1259, ML50119, ML100059, ML1192, ML1203, ML1204, ML1206, ML1210

2. Amendment of environmental authority

On 20 July 2021 the administering authority wrote to you to request written agreement to amend the environmental authority as follows:

- Throughout Schedule E – updates to in condition references to conditions and tables
- Condition E2 – amend to update description of stormwater flows not considered a release to waters
- Table E3 – amend frequency of receiving environment monitoring to “monthly, in the event of flow” and to align with groundwater monitoring where possible
- Table E4 – amend parameters to include major ions, EC, Nitrate and Hardness
- Table E7 – amend column heading “Location” to show Zone 56
- Table E7 – amend to remove decommissioned operational management bore MRMB23
- Table E7 – amend location coordinates for operational management bore MRMB29

Amendment of an environmental authority by written agreement

- Table E7 – amend monitoring points (bore) and/or purpose to reflect outcomes of the environmental evaluation – investigation (STAT1264)
- Table E8 - amend Limit A and Limit B for compliance groundwater bores to reflect outcomes of the environmental evaluation – investigation (STAT1264)
- Previous Table E9 – Groundwater investigation monitoring location and frequency, deleted. Location of all bores and required monitoring frequency in amended Table E7
- Table E9 – Include bore specific compliance limits for parameters EC and sulfate
- Previous Table E10 – Groundwater investigation bore contaminant limits, delete.
- Condition E24 – Amend to remove reference to compliance limits on investigation (operational) bores
- Previous condition E25 - delete
- Previous condition E26 – delete
- Previous condition E27 - delete
- Condition re-numbering as required
- Condition E30 (previously condition E33) – amend to remove part c)
- Condition E33 (previously condition E36) – amend part c) to include parts iii) and iv)
- Schedule J – Map2B – amend to update

On 12 August 2021 the administering authority received written agreement from you for the requested amendments. Environmental authority EPML00712113 has been amended and is attached to this notice.

Should you have any questions about the notice, please contact the department on the contact details provided below.
