## COMPETITIVE LONG-TERM POWER CONTRACT SECURED FOR COWAL

Evolution Mining Limited (ASX:EVN) (“Evolution”) is pleased to advise that it has secured a competitive, long-term power supply agreement for its Cowal Gold Operation under a new eight year partnership with AGL Energy Limited (“AGL”) commencing in January 2023.

Power costs represent approximately 7% of Evolution’s total costs. This agreement provides ongoing long-term security of power supply to Cowal at competitive pricing which is consistent with Evolution’s previously reported FY23 guidance and FY24 outlook. Importantly, this long-term agreement includes a renewable energy component.

Under the terms of the partnership with AGL, a growing portion of the power will be from renewable sources and provides Evolution a clear pathway to meeting its commitment to reduce energy (Scope 1 and Scope 2) emissions by 30% by 2030.

Commenting on the energy supply agreement for Cowal, Evolution’s Executive Chair Jake Klein said:

*“This is a very important milestone for Evolution. In a very challenging energy market, we have been able to secure both a long-term, competitively priced power contract for Cowal and a growing renewable component that provides us a clear pathway to reducing our energy emissions by 30% by 2030.*

*“We will continue to look for new ways to further reduce emissions from our fixed plant and mobile equipment to deliver on our Net Zero commitment by 2050.”*

### Approval

This announcement is authorised by Executive Chair, Jake Klein.
