

EVOLUTION MINING GHG AND ENERGY SUMMARY

- Evolution creates and submits annual reports under the National Greenhouse and Energy Reporting Act to estimate greenhouse gas (GHG) emissions and energy use
- All methods used to estimate GHG emissions and energy were drawn from the National Greenhouse and Energy Reporting (Measurement) Determination 2008, as amended for the relevant financial year
- All results shown are based on Evolution's own estimates, and may differ slightly from results published by the Clean Energy Regulator due to differences in rounding
