Evolution Mining Limited (Evolution or the Company) has elected to implement the Australian Securities Exchange (ASX) Corporate Governance Council’s (“Council”) Fourth Edition Corporate Governance Principles and Recommendations (ASX Governance Principles), and is committed to operating at the highest standards of financial and ethical behaviour and maintaining a high standard of corporate governance which reflects the requirements of the market regulators and the expectations of the Company’s security holders.

Where the Company’s corporate governance practices do not meet with all the practices recommended by the Council, or the Board does not consider it practicable or necessary to implement, the Board’s reasoning for any departure is explained.

The Company advises that it complies with all the ASX Governance Principles other than the Chair of the Board being a non-independent executive director (Recommendation 2.5). This Statement has been approved by the Board of Evolution and is current as at 25 October 2019, and should be read in conjunction with the information presented in the corporate governance section on the Evolution Mining Limited website at www.evolutionmining.com.au, the 2019 Annual Report and the Appendix 4G released on the ASX Market Announcements platform on 25 October 2019.

1. BOARD OF DIRECTORS AND MANAGEMENT

Role of the Board

The Board is the governing body of the Company and its role is to represent and serve the interests of shareholders by overseeing and appraising the Company’s values, strategies, policies and performance, and to provide overall strategic guidance to and effective oversight of management. In fulfilling these duties, the Directors must act in the best interests of the Company as a whole and each member of the Board is committed to spending sufficient time to enable them to effectively carry out their duties as a Director of the Company. The Board and the Company act within a statutory framework, principally the Corporations Act, and the Constitution of the Company. Subject to this statutory framework, the Board has the authority and the responsibility to perform the functions, determine the policies and control the affairs of the Company. The Board must ensure that Evolution Mining acts in accordance with good corporate governance and prudent commercial principles which satisfy shareholders, consistent with maximising the Company’s long-term value.

Responsibilities of the Board and Board Processes

The Board’s functions and the functions delegated to Senior Executives are set out in the Board Charter which is available on the Company’s corporate governance page on the Company’s website and can be accessed here.

In general, the Board is ultimately responsible for, and has the authority to determine all matters relating to the policies, practices, management and operations of the Company. The Board is responsible for establishing the corporate governance standards and management framework. This framework divides the functions of running the Company between the Board, the Executive Chairman and Senior Executives. The Board guides and monitors the business affairs of the Company on behalf of the shareholders by whom they are elected and to whom they are accountable. It is required to do all things that may be necessary to be done in order to carry out the objectives of the Company. The Board delegates authority to Senior Executives to carry out delegated duties in support of the objectives of the Company. It is the role of Senior Executives to manage the Company in accordance with the agreed strategy and delegations of the Board and the responsibility of the Board to oversee the activities of Management in carrying out these delegated duties.
The key functions of the Board include:

- **Leadership**: Together with the Leadership Team, approving the Company’s statement of values and code conduct which underpins the desired culture within the Company

- **Board performance and composition**: Together with the Nomination and Remuneration Committee, evaluating effectiveness of the Board performance on an annual basis, determining its size and composition and adopting formal processes for the selection of new directors and recommending them for the consideration of shareholders at the general meetings with adequate information to allow shareholders to make informed decisions
- **Performing such other functions as are prescribed by law**

As at the date of this report, the Board has established the following committees to assist it in discharging its functions:

- Audit Committee
- Nomination and Remuneration Committee
- Risk and Sustainability Committee

The Board holds regular meetings and is expected to meet periodically throughout the year. Timetables for Board and Committee meetings are agreed annually in advance. Directors’ attendance at meetings this year is set out in the Directors’ Report section of the 2019 Annual Report. Information for Board meetings are prepared and circulated in advance. Senior Executives are regularly involved in Board discussions.

Day to day management of the operations of the Company is delegated by the Board to the Executive Chairman and to Senior Executives subject to the delegation of authority limits approved by the Board. Whilst retaining control of decision making on strategic matters and policy, the Board has delegated to Senior Executives responsibility for:

- **Strategy**: Executing strategies as approved by the Board
- **Policies**: Ensuring compliance with all policies, standards, procedures and codes
approved by the Board

- **Operational performance:** Operating the Company’s businesses and operations within the parameters approved by the Board from time to time, keeping the Board informed of all material developments relating to the businesses and operations, including its compliance with material legal and regulatory requirements and any conduct that is materially inconsistent with the values or code of conduct of the Company.

- **Financial performance:** Developing business plans, budgets and strategies for the Board’s consideration and, to the extent approved by the Board, implementing these plans, budgets and strategies.

- **Risk management:** Establishing and maintaining effective risk management frameworks, systems, policies, standards and procedures to effectively manage financial, health, safety, environment, community and other operational risks and where those risks could have a material impact on the Company’s businesses and operations, formulating strategies for mitigating these risks for consideration by the Board.

- **Reporting:** Managing the Company’s current reporting mechanisms to ensure that these are functioning effectively, and ensuring that the Board is provided with timely, accurate and sufficient information regarding the Company’s current and future operating and financial performance and results, and potential material risks.

- **Continuous disclosure:** Ensuring that the Board are fully informed about all material matters pertaining to the Company and that the Company meets its continuous disclosure obligations.

- **Selection of Senior Executives:** Making recommendations for the appointment of Senior Executives, determining terms of appointment, evaluating performance and developing and maintaining succession plans for Senior Executives.

The Board receives regular updates from the Executive Chairman on matters of strategic, operational or financial importance occurring outside of the Board meeting cycle.

### Board Appointments

It is the function of the Nomination and Remuneration Committee under their Charter to identify and recommend candidates for the Board after considering the necessary and desirable competencies of new Board members, to determine the appropriate mix of skills and experience and how these candidates can contribute to the strategic direction of the Company. When considering Board appointments, the Company ensures that appropriate checks are undertaken on the candidate’s character, education, qualifications, criminal record and bankruptcy history and that sufficient information is provided to shareholders when a candidate is standing for election or re-election as a Director to enable them to make an informed decision on whether or not to elect or re-elect the candidate. Information regarding the Directors who were re-appointed in the 2019 Financial Year at the Annual General Meeting held on 22 November 2018 was provided in the Notice of Meeting dispatched to shareholders on 19 October 2018. All other changes to the composition of the Board are detailed on page 69 of the 2019 Annual Report.

### Induction and Independent Advice

All new Directors are appointed through a written agreement with the Company that sets out all their duties, rights and responsibilities. In addition, the Company Secretary is responsible for ensuring that the new Directors are provided with an information pack consisting of a detailed overview of the strategy, vision and values, details of each operation, the Company and organisational structure, the constitution, policies and charters of the Company. New Directors are also provided with the Board schedule. All Directors have the opportunity to visit at least two of the operations each year on a rotational basis as part of obtaining first hand exposure to the operations, their management and personnel. During the year ended 30 June 2019, the Board visited the Cowal and Mungari operations.

Each Director has the right of access to all Company information and to Senior Executives. Further, each Director and the Board collectively, subject to informing and with the approval of the Executive Chairman, has the right to seek independent professional advice from a suitably qualified advisor, at the Company’s expense, to assist them to carry out their responsibilities. Where appropriate, a copy of this advice is to be made available to all other members of the Board.

### Company Secretary

The Company Secretary is Evan Elstein, who reports directly to the Board through the Executive Chairman on all matters to do with the proper functioning of the Board. All Directors have access to the Company Secretary, who advises the Board and its committees on corporate governance matters, attends and takes minutes at all Board and Board sub-committee meetings, communicates with the ASX and Australian
Corporate Governance Statement

Securities and Investments Commission (ASIC) on all on all regulatory matters, monitors adherence to Board policies and procedures, assists with the continuing professional development of Directors on governance and regulatory matters and retains all professional advisors at the Board’s request. Overall, the Company Secretary is instrumental in promoting good governance practice by facilitating the Board and it’s committees to function effectively in accordance with their charters and good practice.

Board Composition, Experience and Skills

The composition of the Board is reviewed by the Board, in conjunction with the Nomination and Remuneration Committee from time to time, in regard to the ongoing requirements of the Company. The objective is that the Board should be of a size and composition that is conducive to effective decision making with the benefit of a variety of perspectives, skills and experience to meet the Board’s responsibilities and objectives. As at 30 June 2019, the Board comprised of seven Directors, including Mr Jacob Klein, who is the Executive Chairman, and Mr Lawrence Conway, who is the Finance Director and five Non-Executive Directors. Mr Sawiris and Mr de Montessus resigned from the Board effective 1 August 2018 as a consequence of La Mancha’s shareholding falling below 10%. Under the Board Charter, the composition of the Board should comprise a majority of Non-Executive Directors who should also be Independent Directors. The current five Non-Executive Directors have a mix of commercial, exploration, project development, mining and financial skills and experience.

Further details about the Directors including skills, experience and term of office are set out in this report and in the 2019 Annual Report on pages 64 to 102. In addition to the Annual Report, the table on page 8 sets out the skills, attributes and experience of the Directors serving on the Board as at 30 June 2019.

Independence

The Company recognises the importance of Non-Executive Directors and the external perspective and advice that Non-Executive Directors can offer, and the importance of ensuring that Directors are free from interests and relationships that could reasonably be perceived to materially interfere with the Director’s ability to exercise independent judgement and act in the Company’s best interests.

The Board, at least annually, reviews the independence of each Non-Executive Director. This assessment may occur more than once each year if there is a change in circumstances that may impact upon the independence of a Non-Executive Director. Individual Directors must not participate in assessing their own independence and must provide to the Board all information relevant to the assessment.

In assessing independence, the Board considers all circumstances relevant to determining whether the Non-Executive Director is free from any interest and any business or other relationship which could or could reasonably be perceived to materially interfere with that Director’s ability to exercise unfettered and independent judgement on Company issues. Directors are required to take into consideration any potential conflicts of interest when accepting appointments to other boards. The Board has accepted the following definition of an independent director:

An independent director is a director who is not aligned with the interests of management or a substantial holder member and who is free of any business or other relationship that could materially interfere with or could reasonably be perceived to materially interfere with the independent and unfettered exercise of their judgement of issues before the Board.

In addition, in assessing independence the Board will also consider the factors set out in Box 2.3 of the ASX Governance Principles, including whether Directors have during the previous three years, been independent of management and free of any interest, position, association or business or other relationship, or has been director of the Company for such a period that their independence from management and substantial holders may have been compromised.

It is the approach and attitude of each Non-Executive Director which determines their independence, and this must be considered in relation to each Director, while taking into account all other relevant factors as described herein.

Determination of the independence of each Director is made with reference to the factors set out above. As at 30 June 2019, the Board comprises a majority of five Independent directors.

Directors are initially appointed by the full Board subject to election by shareholders at the next general meeting. Under the Company’s constitution the tenure of a Director is subject to reappointment by shareholders not later than the third anniversary following his or her last appointment. There is no maximum age for Directors.

The Board has made the determination that Mr Freestone, Mr McKeith, Mr Askew, Mr Johnstone
and Ms Hall are all Independent Directors. Mr Klein is the Executive Chairman and Mr Conway is the Finance Director and Chief Financial Officer and are therefore not considered to be independent.

The length of service and an assessment of the independence of each Director is detailed in the table below:

Chair of the Board

Mr Klein is the Executive Chairman of the Company. In this role, Mr Klein is required to operate as the Chairman of the Board and also in the capacity of a role equivalent to a Chief Executive Officer. As a result, there is not a clear division of responsibility between these functions and as an Executive Chairman, Mr Klein is not independent of the Company. Notwithstanding the ASX Corporate Governance Council’s recommendation that listed companies should have an Independent Director as Chairman, the Board believes Mr Klein to be the most appropriate person to act as Chairman of the Company at this time for the reasons set out below:

- Mr Klein was instrumental in the formation of Evolution Mining and since his appointment to the Board in 2011, has overseen its rapid growth and success, helping to create Australia’s second largest gold producer and one of the lowest cost gold producers globally
- He has extensive skills and experience in managing and developing mining companies

The dual role of Mr Klein is balanced by the appointment of Mr McKeith as Lead Independent Director (effective from 1 December 2018, replacing Mr Johnstone). In this role, Mr McKeith chairs the discussions of the Non-Executive Directors and represents the Board and the Company in situations where the Executive Chairman may be conflicted. As such, the Board believes Mr Klein is the best person to undertake the Executive Chairman role and does not believe it is necessary at this stage to appoint an Independent Chair of the Board.

3. BOARD AND EXECUTIVE REMUNERATION

Executive Service Agreements & Non-Executive Director Remuneration

The Leadership Team comprises of the Executive Chairman and the five Senior Executives who report directly to the Executive Chairman. Each Senior Executive is employed under an Executive Service Agreement which sets out the employment terms, duties and responsibilities, remuneration details and the circumstances under which employment can be terminated.

The Board (with the assistance of the Nomination and Remuneration Committee) has established a policy to ensure that it remunerates fairly and responsibly. The remuneration philosophy of the Company is designed to ensure that the level and composition of remuneration is competitive, reasonable and appropriate for the results delivered and to attract and maintain talented and motivated Directors and employees. The Nomination and Remuneration Committee is responsible for the oversight of the Company’s equity plans.

Upon the establishment of the Company in 2011, the Nomination and Remuneration Committee was charged with the responsibility for making recommendations to the Board regarding the principles of remuneration to be applied to the Senior Executives of the Company, having regard to the ASX corporate governance principles and the remuneration practices of Australian mining companies of a comparable size to the Company.

During the 2019 Financial Year, an independent remuneration consultant, Mercer Australia, (Mercer) was engaged to provide relevant benchmark data and analysis and prepare a report to assist the Nomination and Remuneration Committee (The Mercer Report), amongst other items, to determine the appropriate levels for Non-Executive Directors fees and Senior Executive remuneration. As a result of the review, the Board has approved an increase to the long-term incentive proportion of the remuneration structure for all participant levels of the Long Term Incentive (LTI) Program. For the key management personnel (KMP), in conjunction with this change, the Board has agreed with KMP members that their total fixed remuneration (TFR) will remain unchanged for the next three years from their TFR on 1 July 2019, based on current role scope and form of the Company. Overall, the Board believes this aligns to the Company’s philosophy of promoting a high achieving culture where the KMP and the broader workforce are incentivised to deliver sustainable business outcomes while increasing shareholder value.

Furthermore, the Board approved an increase in the overall fees paid to Non-Executive Directors with effect from 1 July 2019. This is the first change since 2016 when the Non-Executive Director Equity Plan was introduced and the first change to the cash component of the Non-Executive Director fees since 2015 and aligns to the stated philosophy of positioning the Non-Executive Director Total Remuneration at P75 and aligns to the benchmark from the independent review. The aggregate maximum Director’s fee pool limit is currently set at A$950,000 for Non-Executive Directors and a resolution to increase this limit to A$1,200,000 will be put to shareholders at the Annual General Meeting to be held in Sydney on 28 November 2019 to ensure that the Non-Executive Director Fee Pool can accommodate additional Non-Executive Directors being appointed to the Board (if required) and to enable the Company to maintain remuneration arrangements that are market competitive, so it can continue attract and retain high calibre individuals as Non-Executive Directors.

Details of the Non-Executive Director Equity Plan are provided on page 96 of the FY19 Annual Report.

Non-Executive Directors do not receive retirement benefits, other than statutory superannuation entitlements.

Further details on the structure of Executive Director’s, Non-Executive Director’s and KMP remuneration are set out in the Remuneration Report in the Directors’ Report section of the 2019 Annual Report.

Personnel of the Company are not permitted to enter into transactions which limit the economic risk of any unvested entitlements awarded under any equity-based remuneration scheme, or otherwise awarded, or which will be offered by the Company in the future.

objective, the Company has increased the number of flexible working arrangements available to its employees. This includes adjusted start and finish times, compressed working weeks and altered rosters, with this being equally applicable to Senior Management, with two Group Managers (currently job sharing and working part-time hours). The Company’s pilot program at the Mungari Operation for men and women who have been out of the workforce for more than two years has successfully seen nine placements in a diverse range of roles from IT to mining operations. The Company has focused on attracting more female applicants through targeted advertising and increasing female participation in pipeline programs which focuses on tertiary students engaged in our vacation program or graduates employed and developed as part of our graduate program. 50% of the Company’s current graduates (2019 intake) are female, exceeding the 30% target, and 39% of students in the summer vacation program (2018/19) were female. The Company has set a pipeline target at a minimum of 50% to continue this momentum.

Where candidates have equal skills and experience, preference will be given to the female candidate with the overarching principle that the best candidate for the role will be selected. Within the next 3 years, the Board believes that a target of 30% of its directors be female is achievable.

The Company builds strong relationships with its Aboriginal and Torres Strait Islander communities (ATSI) and have targeted training and employment programs in place to encourage greater ATSI participation in the Company’s workforce. In FY19 the Company developed a set of Social Responsibility Performance Standards, which include the minimum requirements for engaging with its stakeholders.

The Company recognises that a failure to appropriately manage or meet local community stakeholder expectations may lead to dissatisfaction which has the potential to disrupt or prevent production and exploration activities. As such, the Sustainability Policy and Social Responsibility Standards are designed to support the Company's objectives of working with its community stakeholders to achieve their future aspirations and ensuring that, as a member of these communities, the Company strives to make a positive difference and to earn the trust of its community stakeholders. Examples of the Company’s Sustainability Projects are included on pages 33 to 35 of the 2019 Annual Report.

Health, Safety and Environment

The Company has an established Health, Safety and Environment (HSE) function, and has developed an HSE management system and framework which outlines the Company’s approach to managing these risks. The management system includes the requirement for the operations to implement the Sustainability Policy and the Sustainability Performance Standards. These include the requirement to implement Critical Control plans, risk registers, standard operating procedures and a risk management process. It is an expectation that all incidents and hazards are reported and investigated to reduce the risk of occurrence in a future event. These systems are overseen by the established internal audit and monitoring programs in place.

In relation to the management of environmental risk, a key component of the Company’s Sustainability Performance Standard is the management of the core risk areas including waste rock management, tailings management, chemical management, water management and energy efficiency. The Company employs the services of environmental specialists to assist in the management of environmental aspects and impacts across the Company’s operations.

All of the operations are subject to functional risk control audits every year, these focus on compliance with Health and Safety requirements, environmental protection and risk management. The findings of these audits are communicated to the Leadership Team and the Risk and Sustainability Committee and action items are tracked within the Company’s HSE data management system. Matters relating to HSE are recorded in a database and communicated widely across the organisation on a monthly, quarterly and annual basis and the Company’s HSE performance is monitored and reviewed by the Risk and Sustainability Committee at each meeting.

The mining operations across the Company are required to maintain and monitor a site risk register which outlines all key operational risks, including HSE risks and the appropriate control measures in place to mitigate those risks. The site risk register rolls up to the Company risk register which is reviewed at regular intervals by the Risk and Sustainability Committee.

Examples of the Company’s management of material, economic, environmental and social responsibility risks and the systems it has in place to manage these risks is included in the Sustainability Report on pages 6 to 40 of the 2019 Annual Report.

While the Company has implemented an extensive Sustainability Policy and Standard framework to ensure the health and safety of its employees, contractors and members of the community affected by its operations as described herein and in the Annual Report, there is no guarantee that such measures will eliminate the occurrence of incidents which may impact the community or result in personal injuries, damage to property or interruption to its production or exploration activities, and in certain instances such occurrences could give rise to regulatory fines and/or civil liability, despite the Company’s best efforts to avoid such occurrences.
