

INTERNAL/EXTERNAL CAREER OPPORTUNITY

The Red Lake district is located 180 kilometers north of Dryden about 100 kilometers from the Manitoba border in Northwestern Ontario, Canada. It spans 42,000 hectares and has produced over 29 million ounces of gold since 1949. Our Red Lake Operation includes the Red Lake and Campbell underground mining and processing complexes, and Cochenour, a potential new source of ore. As Evolution's newest asset and our first in North America, we are excited by the opportunities here. The Red Lake Operation is located in an area where you will experience the best in Northern lifestyle, in the heart of a lake-studded, boreal forest region in Sunset Country. Red Lake is known for its natural beauty, abundant wildlife, and incredible Canadian fishing in the many freshwater lakes in the area.

We want your time at Evolution to be a highlight of your career. We will dare you to think differently, act like an owner and live our values of safety, accountability, excellence and respect. We take pride in looking after our people and are passionate about personal development. We will help you build on your strengths, appreciate your diversity, provide opportunities for your development and challenge you to be your best. We will make sure you are clear on your accountabilities and have the right resources, systems and tools to achieve and succeed in your role. As a growth focused business, we recognise our people's efforts and reward the outcomes they deliver, as well as how they delivered them. We offer competitive salaries and bonus structures and have for the past four years invited our people to share in our success through an employee share scheme.

Environmental Technician – RED0000001 (Sustainability)

Red Lake Operation

Reporting to the **Sustainability Manager**, the **Environmental Technician** will be responsible for monitoring activities in the environmental department to ensure compliance with provincial and federal regulations. This position will work a **local 4x3, 10.5-hour shift schedule** offering a great work/life balance.

What you'll do

- Conduct activities related to various environmental monitoring programs:
 - Spill response plan
 - Tailings management
 - Water and sewage treatment
 - Surface water and groundwater sampling
 - Air emissions
 - Waste management
 - Closure planning
- Communicate with and manage external laboratory services.
- Maintain water quality database and records.
- Work in a healthy work environment with full support, cooperation and commitment to satisfy our operation's goal of being accident-free.
- Comply with federal and provincial acts, regulations, and legal requirements.
- Adhere to all Newmont Goldcorp policies and procedures.
- Perform other duties as assigned.

Who you are

- Must possess a minimum college diploma in an environmental program with a minimum of 1-3 years' experience in the environmental field, preferable in the mining industry.
- Comprehensive knowledge of environmental legislation, provincial acts, and regulations.

How to Apply

Applications close on **Monday, April 20, 2020**. Interested candidates are to apply by sending your resume and cover letter to HR.RLO@evolutionmining.com referencing the Job Number **RED0000001**. At this time, we are not accepting candidates referred by recruitment agencies. Internal candidates must submit a job application form to Connor Ranger, People and Culture. Please note that relocation will not be available to those located within 80 kilometers of Red Lake Gold Mines or for contract positions. As an equal opportunity employer, Evolution is committed to diversity, inclusion, and accessibility. We encourage all qualified candidates to apply. Accommodations are available on request for candidates taking part in all aspects of the selection process.
