

BMO GLOBAL METALS & MINING CONFERENCE

Jake Klein – Executive Chairman MARCH 2021

FORWARD LOOKING STATEMENT

These materials prepared by Evolution Mining Limited (or "the Company") include forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue", and "guidance", or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the Company and its management's good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. The Company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the Company's business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by the Company or management or beyond the Company's control.

Although the Company attempts and has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in forward looking statements, there may be other factors that could cause actual results, performance, achievements or events not to be as anticipated, estimated or intended, and many events are beyond the reasonable control of the Company. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the Company does not undertake any obligation to publicly update or revise any of the forward looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.

This presentation has been approved for release by Evolution's Board of Directors.

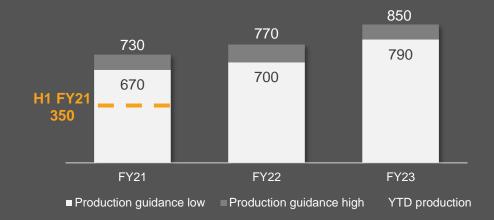

AUD:USD exchange rate assumption of 0.75 used throughout this presentation unless stated otherwise.

EVOLUTION SNAPSHOT

RESERVE PRICE ASSUMPTION	A\$1,450/oz
FY21 PRODUCTION GUIDANCE	670 – 730koz
FY21 AISC GUIDANCE	US\$930 – US\$975/oz A\$1,240 – A\$1,300/oz

Production increasing by 17% over next two years (koz)

Declining AISC profile (US\$/oz)

⁽¹⁾ Based on share price of A\$4.20 per share on 26 February 2021

⁽²⁾ Average daily share turnover for one month through to 26 February

⁽³⁾ As at 31 December 2020. Bank debt of A\$525 million less cash of A\$438 million

⁽⁴⁾ Information related to Evolution's Mineral Resources and Ore Reserves in this presentation is extracted from the ASX release entitled "Annual Mineral Resources and Ore Reserves Statement" released on 17 February 2021 and available to view at www.evolutionmining.com.au. Details are provided in the Appendix of this presentation

SUSTAINABILITY

INTEGRATED INTO EVERYTHING WE DO

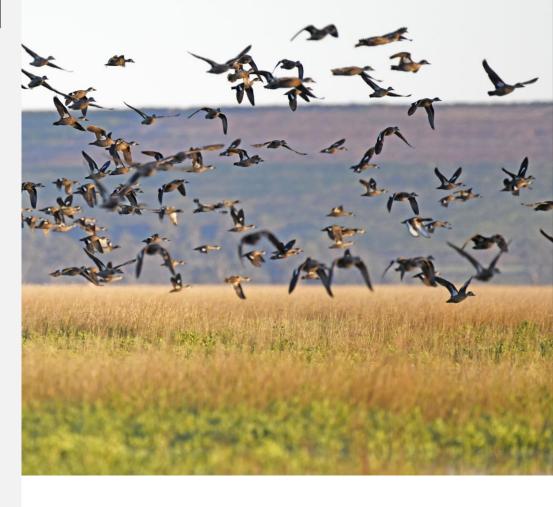

Keeping our people healthy and safe

- Zero COVID-19 cases at our operations with A\$2M+ to support communities
- Safety: strong reporting, investigating, assurance and learning culture

ESG focus – creating value in the areas we choose to lead

- Cultural Heritage engaging with our First Nation partners to move beyond our obligations to 'doing the right thing'
- Emissions developing long term climate-related (energy and emissions) targets and emissions reduction pathways to move towards a net zero future. Long term carbon reduction mapping includes:
 - Target development
 - Integrating Carbon reduction plans
 - Technology roadmap with Life of Mine and Project planning
- Water Security mitigating risk to our operations through reduction of external raw water demand (baseline 0.54kL/t), increase in reuse of water and reduction of total demand
- Extreme Weather and Health Events enhancement of business continuity planning and supporting our communities

PREMIER GLOBAL MID-TIER GOLD COMPANY

BEST IN CLASS FINANCIAL RETURNS

Cowal Mineral Resources of 9.6Moz gold (Dec 2019 – 8.6Moz)

Cowal Ore Reserves of 4.6Moz gold (Dec 2019 – 3.6Moz)

RED LAKE

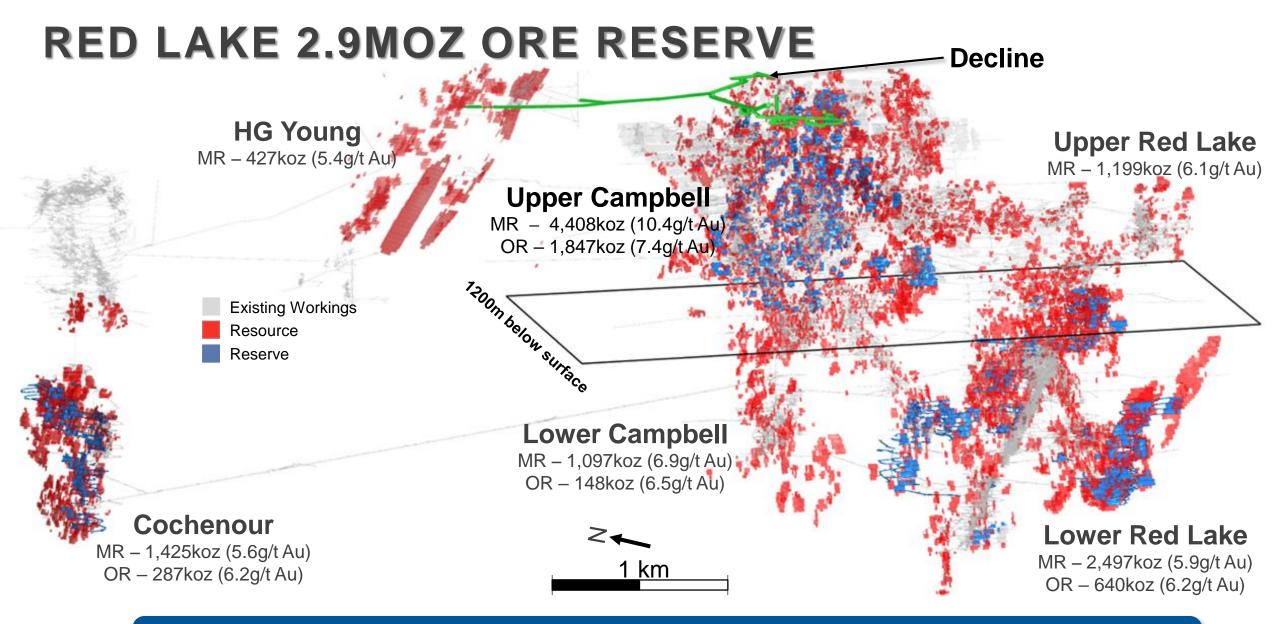

- Acquired 1 April 2020
- Large Mineral Resource of 11Moz
- Third highest Ore Reserve grade of operating mines in Canada of 6.9g/t gold
- Stage 1 transformation plan ahead of schedule to produce over 200,000 ounces per year at an AISC of <US\$1,000 per ounce
- Long term objective of restoring Red Lake to a premier
 Canadian gold mine producing 300,000 500,000 ounces
 per year

Canadian Gold Mines Reserve Grade (g/t)

Evolution

Red Lake Mineral Resources of 11.0Moz gold (7.0Moz at acquisition)
Red Lake Ore Reserves of 2.9Moz gold (~1.3Moz at acquisition)

RED LAKE - TRANSFORMATION AHEAD OF SCHEDULE

Key projects for success

June 2020 Qtr

Sept 2020 Qtr

Dec 2020 Qtr

FY22 FY23 FY24 +

Acquisition in April 2020

- 1.3Moz Reserves
- 7.0Moz Resources

Workforce restructure

Major shut of Campbell Mill to improve reliability

Red Lake mill placed on care and maintenance

Reduced number of mining fronts

Decommissioned 42 pieces of underground equipment

11Moz Maiden Mineral Resource (JORC)

Ongoing rationalisation of infrastructure

Phase I Hoist Automation

2.9Moz Maiden Ore Reserves (JORC)

Surface Decline Approved

Improved Campbell Mill reliability (97%)

Underground development rates of over 1,000m per month achieved

FY21 year-to-date production and costs ahead of plan

200kozpa AISC <US\$1,000/oz

- Consistent development rate of 1,200m per month
- Haulage optimisation and larger capacity mining fleet
- > Increase mining rates to above 1Mtpa
- Complete Hoist automation
- Build surface stockpiles
- Restart Red Lake mill

300-500Kozpa

- > Lift mining rates to above 2Mtpa
- Increase milling capacity (studies underway)

ERNEST HENRY

- Excellent margin and returns
 - Repaid 100% of invested capital
 - Average annual return of 25%
 - Record half-year net mine cash flow of A\$157M
- Efficient, low-cost sub level cave
 - Annual gold production of 85 90koz¹
 - Attractive copper exposure of ~20ktpa¹
- 24km of drilling completed in 2020 to assist in improving orebody knowledge & understanding below 1200mRL
 - 2021 drilling budget doubled
 - Concept study during June 2021 half-year

APPENDIX

SUSTAINABILITY PRINCIPLES

The objective of our sustainability efforts is to deliver long-term stakeholder **value** through **safe**, low-cost gold production in an **environmentally** and socially **responsible** manner

Be an employer of choice attracting the most talented people and foster a **safe**, **diverse** and **inclusive** workplace

Demonstrate robust **risk** management and safety leadership

Contribute positively to local, regional and national sustainability efforts by achieving an outstanding level of environmental stewardship

Actively manage climate related risks and opportunities including improving energy efficiency and the responsible management of water

Protect and enhance our reputation as a trusted partner and provide community benefits that endure beyond the life of our mines

Advance the outcomes for indigenous peoples and protect their Cultural Heritage

Respect the **human rights** of all our stakeholders

Be transparent at all levels of **Corporate Governance**, comply with applicable laws and regulations and operate at the **highest standards** of financial and ethical behaviour

Relentlessly drive for operational excellence through an innovative culture and inspired people delivering to plan

Data is reported to significant figures to reflect appropriate precision and may not sum precisely due to rounding. Mineral Resources are reported inclusive of Ore Reserves. 'UG' denotes underground.

Full details of the Evolution Mineral Resources and Ore Reserves are provided in the report entitled "Annual Mineral Resources and Ore Reserves Statement" released to the ASX on 17 February 2021 and available to view at www.evolutionmining.com.au
Full details of the Ernest Henry Mineral Resources and Ore Reserves are provided in the report entitled "Glencore Resources and Reserves as at 31 December 2020" released 3 February 2021 and available to view at www.glencore.com.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Reports and that all material assumptions and parameters underpinning the estimates in the Reports continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the Reports. Evolution Mining has an economic interest earning rights to 100% of the revenue from future gold production and 30% of future copper and silver produced from an agreed area, and 49% of future gold, copper and silver produced from the Ernest Henry Resource is reported here on the basis of economic interest and not the entire mine resource. The above reported figures constitute 77% of the total Ernest Henry gold resource.

¹Includes stockpiles ² Ernest Henry Operation cut-off 0.9% CuEq ³ Red Lake cut-off is 3.3g/t Au except for Cochenour (3.0g/t Au) and HG Young (3.2g/t Au) deposits

⁴Group Mineral Resources Competent Person (CP) Notes refer to 1. James Biggam; 2. Dean Fredericksen; 3. Brad Daddow; 4. Tim Murphy; 5. Ben Coutts; 6. Jessica Shiels (Glencore)

⁵The Mineral Resource for the Mt Carlton A39 underground deposit has been estimated using a AuEq (g/t) cut-off of 4.4g/t to enable quotation of this silver rich deposit as equivalent gold ounces.

The gold equivalent (AuEq) calculation accounts for silver recoveries determined from metallurgical test work and uses an assumed silver price of A\$26/oz and gold price of A\$2,000/oz as per the below equation.

AuEq=26/2,000*0.8203*silver grade (Silver price/Gold price*silver recovery*silver grade). It is the Competent Persons opinion that the assigned cut-off criteria satisfies the JORC Code requirement that the reported Mineral Resource meets reasonable prospects of eventual economic extraction and that the silver present within the A39 deposit can be economically recovered.

Full details of the Evolution Mineral Resources and Ore Reserves are provided in the report entitled "Annual Mineral Resources an Ore Reserves Statement" released to the ASX on 17 February 2021 and available to view at www.evolutionmining.com.au
Full details of the Ernest Henry Mineral Resources and Ore Reserves are provided in the report entitled "Glencore Resources and Reserves as at 31 December 2020" released 3 February 2021 and available to view at www.glencore.com.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Reports and that all material assumptions and parameters underpinning the estimates in the Reports continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the Reports. Evolution Mining has an economic interest earning rights to 100% of the revenue from future gold production and 30% of future copper and silver produced from an agreed area, and 49% of future gold, copper and silver produced from the Ernest Henry Resource is reported here on the basis of economic interest and not the entire mine resource. The above reported figures constitute 86% of the total Ernest Henry gold reserve.

¹Includes stockpiles 2 Ernest Henry Operation cut-off 0.9% CuEq 3Red Lake cut-off is 4.3q/t Au except for Lower Campbell (4.4q/t Au) and Upper Campbell (2.5q/t Au) deposits

⁴Group Ore Reserve Competent Person (CP) Notes refer to 1. Ryan Kare; 2: Joshua Northfield; 3.Brad Armstrong; 4: Ken Larwood; 5. Thomas Lethbridge; 6. Anton Kruger; 7. Michael Corbett (Glencore)

⁵The Ore Reserve for the Mt Carlton A39 underground deposit has been estimated using a AuEq (g/t) cutoff of 6.1g/t to enable quotation of this silver rich deposit as equivalent gold ounces.

The gold equivalent (AuEq) calculation accounts for silver recoveries determined from metallurgical test work and uses an assumed silver price of A\$20/oz and gold price of A\$1,450/oz as per the below equation.

AuEq = 20/1,450*0.8203*silver grade (Silver price/Gold price*silver recovery*silver grade). It is the Competent Persons opinion that the assigned cut-off criteria meets the minimum acceptable criteria to support economic extraction and that the silver present within the A39 deposit can be economically recovered.
